# Custom-Made vs. Over-the-Counter Orthotics

FOOT LEVELERS  
**100% GUARANTEED**

## Why Orthotics?

Stabilizing orthotics are prescription shoe inserts. They're custom-made to easily slide into your shoes and support the unique shape of your feet.

Just as everyone has a unique personality, everyone has a unique body structure and foot shape. The benefit of using **custom-made orthotics**—rather than generic, mass-produced ones—is that they're **perfectly fitted to you**.

### Custom-Made, Stabilizing Orthotics

1. Support all 3 arches of your feet to help balance your body
2. Promote optimum posture and enhance and secure Chiropractic adjustments
3. Guaranteed or your money back
4. Individually designed based on 3D imaging or impressions of your feet
5. Patented Gait Cycle System® offers support through each phase of your gait

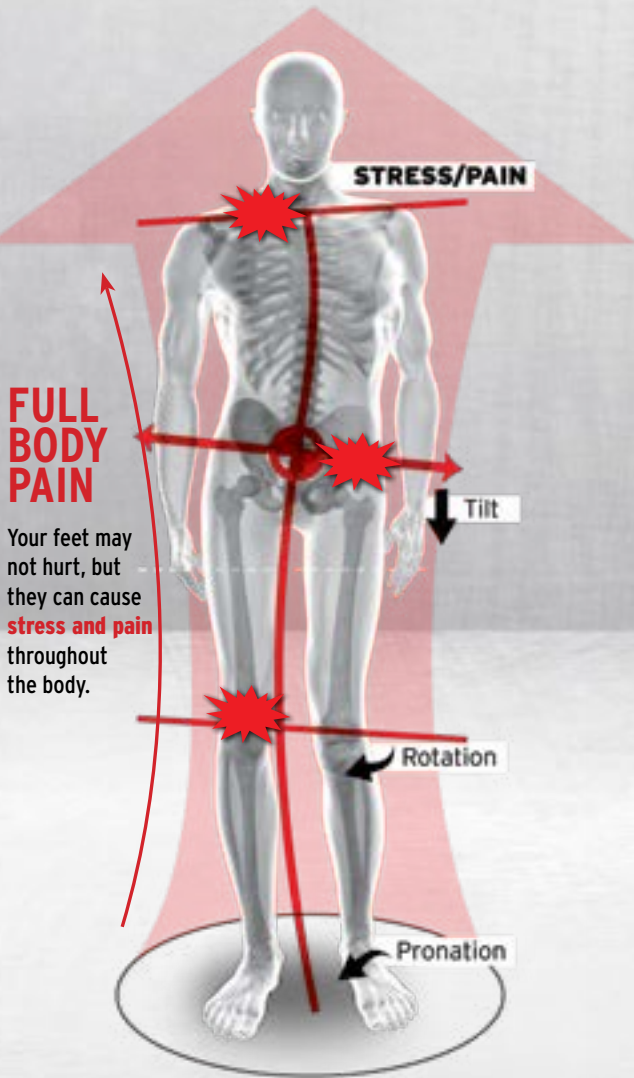

### Over-the-Counter Orthotics

1. Only support one arch and often overcorrect, causing more harm than good
2. Offer generic solutions for a number of foot conditions
3. Durability is questionable, so you may spend more money over time replacing them
4. Just add cushioning to treat the symptom rather than the underlying problem
5. Do not provide custom support for your gait

# What Stabilizing Orthotics Do For You

BEFORE  
**Unsupported**

AFTER  
**Supported with  
Stabilizing Orthotics**

**FULL  
BODY  
PAIN**

Your feet may not hurt, but they can cause **stress and pain** throughout the body.

**STRESS/PAIN**

Tilt

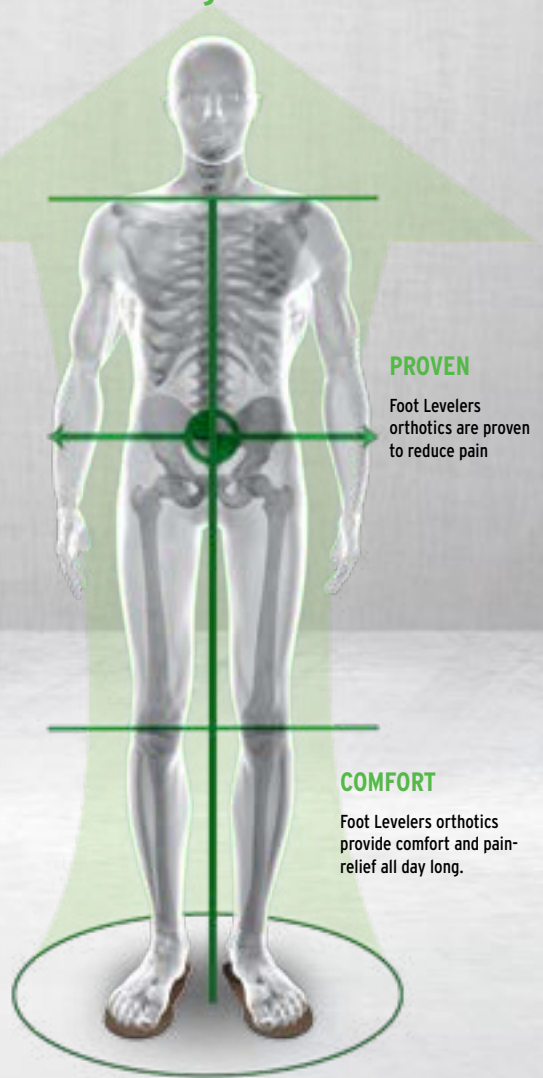

Rotation

Pronation

Without Orthotics

**PAIN RELIEF**

Relieve pain by fixing biomechanics

**PROVEN**

Foot Levelers orthotics are proven to reduce pain

**COMFORT**

Foot Levelers orthotics provide comfort and pain-relief all day long.

With Foot Levelers Orthotics

# PROVEN

## Less Pain. More Comfort

Foot Levelers custom orthotics are **PROVEN**  
to reduce Low Back Pain by **34.5%**

<sup>1</sup>Cambron JA, Dexheimer JM, Duarte M, Freels S, Shoe Orthotics for the Treatment of Chronic Low Back Pain: A Randomized Controlled Trial, ARCHIVES OF PHYSICAL MEDICINE AND REHABILITATION (2017), doi: 10.1016/j.apmr.2017.03.028.

# What Orthotics Do For Your Body

Foot Levelers stabilizing orthotics were developed to improve your comfort level. Foot Levelers orthotics also help reduce low back pain, hip pain, and even neck pain. Learn more about each of these conditions and how Foot Levelers can help you live a pain-free lifestyle.

**Low Back Pain**  
There are many possible reasons for low back pain, but spinal strain and postural fatigue account for about 70% of cases not caused by more serious conditions.

**Short Leg**  
Leg length inequality (LLI) can cause pressure, stress, and pain in your knees, thighs, hips, pelvis, and spine.

**Sacroiliac Joint Pain**

The sacroiliac (or SI) joints are the link between your spinal column and pelvis. They help absorb damaging shock forces, and they also help stabilize the body and transmit weight to the lower limbs.

**Knee Pain**

There is no single cause for painful knee joints. But there are generally 2 types of contributing factors: traumatic and chronic. Your doctor will help determine the cause of your knee pain.

Ask your doctor how Foot Levelers can help reduce pain

# What Orthotics Do For Your Feet

The pain you feel in your feet is debilitating and prevents you from living life to its fullest. Foot Levelers stabilizing orthotics offer relief from some of the most common foot conditions, including plantar fasciitis and metatarsalgia. Foot Levelers orthotics are a great solution if you're experiencing foot pain.

## Flat Feet

When a foot is severely pronated, or flat, it means its arches have fallen. Flat feet are less shock-absorbent for the bones, muscles, ligaments, and tendons of the entire body.

## Chronic Ankle Instability

If your ankle frequently "gives way" while walking or during activity, or if you've suffered from multiple sprains, you may have chronic ankle instability.

## Plantar Fasciitis

The plantar fascia is the soft, springy tissue on the underside of the foot. With injury, wear-and-tear, or age, a painful, ongoing condition may result: plantar fasciitis.

## Metatarsalgia

Metatarsalgia is pain in the ball of the foot. The soft, springy tissue beneath the foot is the support system for bones. With injury, wear-and-tear, or age, tissue deteriorates. Arches flatten, and toes may begin to crowd one another.

Ask your doctor how  
Foot Levelers can  
help reduce your  
Foot Pain

# The Perfect Orthotic for EVERYDAY

# Our #1 Doctor Recommended Orthotic

## InMotion® Improves performance in active patients

Designed for Everyday Activities

- Celliant® top to help increase energy and enhance performance
- Remove/wick away moisture 4x faster
- Help control odor and bacteria
- Includes DRS-X™ and the patented Gait Cycle System® for extra shock absorption
- Top cover provides better grip during athletic activity

“I've had custom orthotics for years but was amazed when these arrived within a week to treat my neuroma! It was like going from a VW Bug to a Rolls Royce. The more I walked with the Foot Levelers, the better my feet felt! Six weeks later, I finished a 530-mile backpack trip, and I am ever so grateful to my Chiropractor and Foot Levelers.”  
- Sandy B.

Be sure to ask your doctor about getting extra orthotics for support in all your shoes

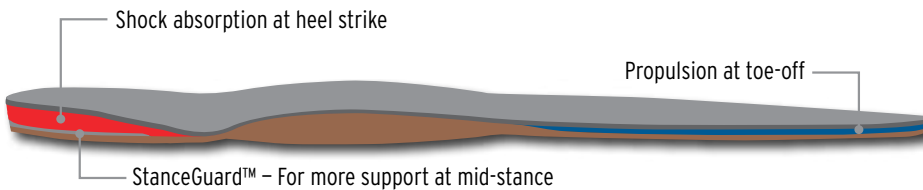

EXTREME

For those who are on their feet most of the day, or who need maximum support and shock absorption. The more a person weighs and the more active they are, the more support is required.

ULTRA

For those who are still active but may not need maximum shock absorption or need a lower-profile orthotic.

What's on the Inside?

# Choose a Top Cover.

## Active

Active Cambrelle® Top

Regulates foot and body temperature while controlling moisture.

**Recommend to:**
