Dr. Alex Jimenez DC mentioned:

Chronic facial pain describes any pain felt in the face or neck area. And as commonly caused by problems with a person's jaw, such as repeated clenching of the jaw or grinding of the teeth or an MIS line bite neuropathic, chronic facial pain might also originate from the CEAL nerves in a condition called occipital neuralgia.

NEUROPATHIC CHRONIC FACIAL PAIN
MAY ALSO ORIGINATE FROM THE
OCCIPITAL NERVES, IN A CONDITION
CALLED OCCIPITAL NEURALGIA.
THIS TYPE OF PAIN GENERALLY
ORIGINATES FROM THE BACK OF THE
HEAD, AND CAN RADIATE TO THE FACE.

What Is Chronic Pain?

This pain generally stems from the back of the head and can radiate to the face. Atypical facial pain is usually idiopathic, meaning there is no known cause; atypical chronic facial pain occurs on one side of the face while the symptoms are present for most of the day. Almost every day, the diagnosis of atypical chronic facial pain is generally made. After more common causes are excluded from diagnosing chronic facial pain.

What Is Chronic Pain?

Your physician will conduct a thorough physical examination to assess tenderness over certain areas of the face and neck to determine the root cause of the pain. Once a proper diagnosis is made, a treatment plan can begin trigeminal nerve blocks. CEAL nerve blocks. Since phenol Palatine, gang limb blocks can treat neuropathic chronic facial pain.
